

San Joaquin County

Emergency Medical Services Agency

Continuous Quality Improvement Report

Performance Improvement Activity: Develop and monitor performance indicators for hospital diversion and ambulance delay times in accordance with EMS Policy No. 4980, Receiving Hospital Diversion.

Reporting Period (month, quarter, year): October 2006

1. Opportunity/Issue/Problem **(PLAN)**

- Opportunity: Evaluate and improve hospital diversion and ambulance delay times.
- Problem: Patient assessment and treatment in the hospital setting is delayed by hospital diversion and prolonged ambulance patient care transfer times.
- Goal: Obtain baseline data and minimize diversion times.

2. Solution Implemented **(DO)**

- Collect hospital status data from EMSsystem.
- Collect data from prehospital care provider Delay of Transfer of Care at the Emergency Department forms.

3. Data Elements Collected for Evaluation

- Hospital Status:
 - Diversion
 - Advisory
 - Internal Disaster
- Delays in transfer of care

4. Results and Data Analysis **(STUDY)**

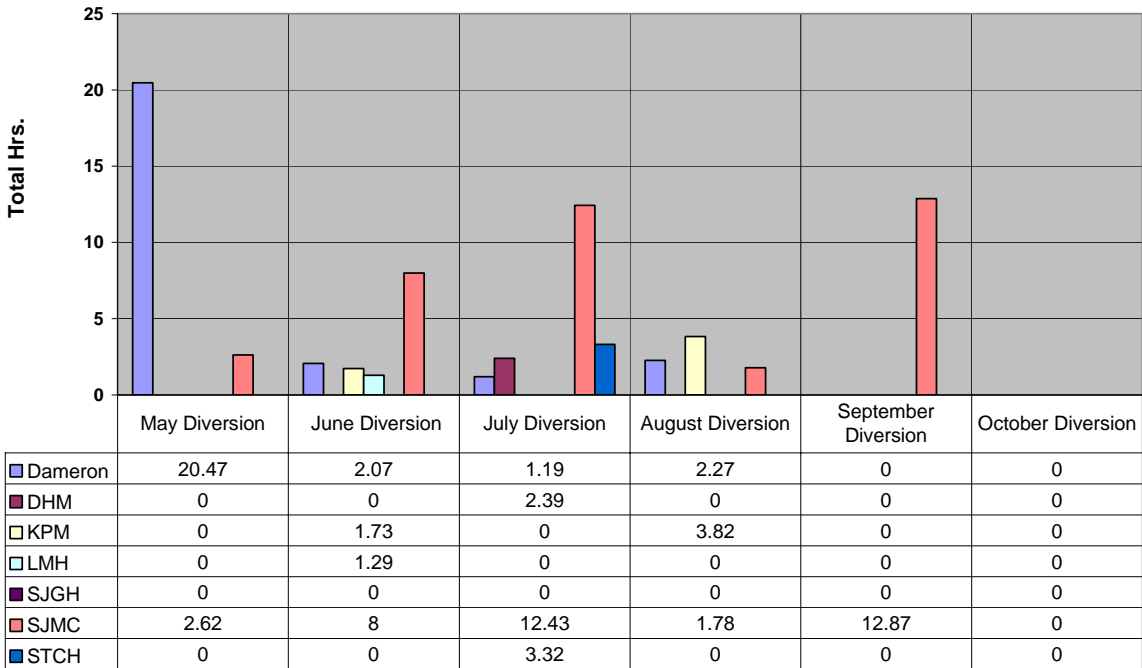

Analysis of data for October 2006 includes the following results:

- 0/7 hospitals utilized diversion time to manage emergency department (ED) inundation.
- Total hospital diversion time was zero hours.
- 0/7 hospitals closed to ambulance traffic due to Internal Disaster.
- There was no delay of transfer of care in the Emergency Department reports filed with the EMS Agency during the month of October.

5. Conclusions and Recommendations **(ACT)**

- Facility specific diversion times are as followed:
 - Dameron – N/A
 - Doctors Hospital of Manteca – N/A
 - Kaiser Permanente Manteca – N/A
 - Lodi Memorial Hospital – N/A
 - San Joaquin General Hospital – N/A
 - St. Joseph's Medical Center – N/A
 - Sutter Tracy Community Hospital – N/A
- Recommendations:
 1. Maintain policy for receiving hospital diversion.
 2. Continue receiving hospital use of EMSsystem for reporting advisory status.
 3. Continue to collect and trend hospital status and delay of transfer data.
